Subject: letter to rep clay

Dear Rep Clay:

Thanks for taking time to get my update about Region 7's work on both the Westlake Landfill and Carter Carburetor schedules. Please contact me any time you need more information or want to share your views about the agency's best course of conduct. I value your judgment and am glad we are working together on these tough problems.

I especially appreciate your kind invitation to join you at the White House in January when President Obama presents the Medal of Freedom to St. Louis Cardinal great, Stan Musial. Please let my assistant Julia Cacho know more about the schedule as you get information. That would be a special honor for me to be your guest at this important ceremony. We share an appreciation for the game of baseball and know how important the Cards have been to the game, and Stan the Man to the Cards.

With best wishes for this Holiday Season, I look forward to a bright 2011.

Karl Brooks
